

Non Ferrous Metal Scrap

WE'LL MAKE IT POSSIBLE FOR YOU —

Trident Metals

Shredded Non-Ferrous Scrap(mainly Aluminium) as per ISRI Zorba

Description

Shall be made up of a combination of the nonferrous metals: aluminum, copper, lead, magnesium, stainless steel, nickel, tin, and zinc, in elemental or alloyed (solid) form. Material generated by eddy current, air separation, flotation, screening, other segregation technique(s), or a combination

Shredded Non-Ferrous Scrap(mainly Stainless Steel) as per ISRI Zurik

Description

Shall be made up of a combination of the nonferrous metals: stainless steel, insulated copper wire, aluminum, copper, lead, magnesium, nickel, tin, and zinc, in elemental or alloyed (solid) form. Shall have passed one or more magnets to reduce or eliminate free iron and/or large iron attachments. Shall be free of radioactive material, dross, or ash.

Mix Shredded High Density metals “Heavies” as per ISRI Zebra

Description

Shall consist of high-density nonferrous metals produced by media separation technology containing brass, copper, zinc, nonmagnetic stainless steel, and copper wire.

Aluminium Scrap

Major Grades as per ISRI of Aluminium Scrap we deal in

- Old Mixed Casting scrap as per ISRI Tense/Trump
- Old Sheet scrap as per ISRI Taint Tabor
- Floated Aluminium scrap as per ISRI Twitch
- Aluminium Copper radiators as per ISRI Talk
- Aluminium radiators as per ISRI Tally
- Extrusions scrap as per ISRI Tread/Tutu/Tata
- Mixed Turnings and Borings as per ISRI Telic
- New Sheet scrap as per ISRI Tough/Taboo
- Used Beverage can scrap as per ISRI Taldon
- Lithographic Sheet scrap as per ISRI Tablet / Tabloid
- Foil Scrap as per ISRI Terse/Tesla

Stainless Steel

Following are the Grades of Stainless Steel scrap we deal in

- 300 Series : 304 , 316 , 321 , 301
- 200 Series: 201,202
- 400 series: 409,410,430,341,440,444

Copper Scrap

Major Grades as per ISRI of Copper Scrap we deal in

- No 1 Wire scrap as per ISRI Berry/Barley
- No 2 Wire Scrap as per ISRI Birch/Cliff
- No 1 Heavy copper as per ISRI Candy
- Insulated wire scrap as per ISRI Druid

Brass Scrap

Major Grades as per ISRI of Brass Scrap we deal in

- Mix Brass Scrap as per ISRI Honey
- Brass radiator Scrap as per ISRI Ocean
- Brass Pipes scrap as per ISRI Pales/Pallu
- Red Brass scrap as per ISRI Ebony
- Brass Turning scrap as per ISRI Nomad
- New Brass Sheet cutting scrap as per ISRI Label

Zinc Scrap

Major Grades as per ISRI of Zinc Scrap we deal in

- Diecast Scrap as per ISRI Saves/Scabs
- Sheet Scrap as per ISRI Score
- Shredded Scrap as per ISRI Scribe
- Hot Dip Galvanizers Slab Dross as per ISRI Scrub

info@tridentmetals.in

www.tridentmetals.in

Mixed Metal Scrap

Major Grades as per ISRI of Mixed Metal Scrap we deal in

- Mixed Electrical Motors scrap
- Copper Stators & Rotors
- Copper Transformers
- Automobile Alternators , Starters and AC Compressors
- Fridge Compressors

Alloy Metal Scrap

Major Grades as per ISRI of Mixed Metal Scrap we deal in

- Low alloy steel scrap containing 1-4% Nickel and/or 1-2% Molybdenum
- Manganese Steel scrap
- High Speed Steel Scrap M1, M2, M3 Etc
- Die Steel scrap Grade H11, H13, D1, D2 Etc
- Drill Bits
